

have taken upon ourselves the IDENTITY OF CHRIST IN WHICH IS FREEDOM. Remember what I said about using that word "Christ". Do not use it just because you have read it in Scripture or in metaphysical literature. Do not use it because I say it to you.

CHRIST IS A REALITY. Christ is something so VITAL..so REAL..that we cannot demonstrate It unless we UNDERSTAND IT. Life in Christ means freedom from the bondage of organs and functions of the body. Harmony in Christ means freedom from the belief of bondage to dollars and cents. Harmony in Christ means freedom from erroneous human relationships..family, business, national and international. And when we have PUT ON CHRIST, mortality will have disappeared. When we have PUT ON OUR CHRIST IDENTITY and have stopped relating ourselves to human birth, maturity and ultimately death, we will have achieved immortality here and now.

TIME AND SPACE

Do you know what it is that keeps us from understanding such subjects as reincarnation and pre-existence in their fulness? TIME AND SPACE. The moment you think of reincarnation and pre-existence, you are thinking in terms of time. When did it happen..and so on. It is the same with immortality. Why do we not understand it better? Because we think of immortality in terms of time.

But TIME has nothing to do with TRUTH! You can collapse ALL time into THIS SECOND! The moment you can rise above your limitations of human finiteness, you can SEE past, present and future. Yes; you can do that. It has been done over and over again even from the human standpoint. We can have limitless vision from the human standpoint. It all is THE ACTIVITY OF CONSCIOUSNESS.. and we have broadened our consciousness. It is not true that the eyes see only that which is within eyesight and the ears hear only that which is within earshot when CONSCIOUSNESS is not so bounded.

I do not leave my body..do not believe you can leave the body. It is just a SEEMING. It is just a SENSE that comes to us to show us the LIMITLESS NATURE OF OUR CHRIST SELF. As long as we identify ourselves with physicality, we are limited to the body. But the very MOMENT we can find our FREEDOM IN CHRIST, we have no such limitation. And this will come at a time and in a place in which we can show forth some lesson of unlimited time and space. It will not be exhibitionary.

So, if you want to understand reincarnation, pre-existence, immortality, SEPARATE THEM FROM THE BELIEF OF TIME. Try to think of what the past means when the PAST is happening NOW. Try to think of what the future means when the FUTURE is taking place NOW. When ALL IN ONE MOMENT you can see past and present and future, then you will know what these subjects are.

Reincarnation..pre-existence..immortality: These three subjects all really mean UNFOLDING CONSCIOUSNESS. Unfolding Consciousness means CONSCIOUSNESS UNFOLDING, revealing Itself at the standpoint of our particular understanding. That is all there is to these three subjects.
